

**NEW DRIVERS,
REMEMBER...**
Driving is your first responsibility.

*You can't learn to play football while talking on your mobile phone...
You can't learn to play the piano while talking on your mobile phone...
And you can't learn to drive while talking on your mobile phone.*

You can pull over to make a call, or you can wait. If you must make a call while driving, please remember that your first priority is to drive responsibly.

Find out if there are special requirements for new drivers in your area, such as graduated licensing laws, that you need to follow.

SAFE DRIVING TIPS

If you consider a call necessary...

Don't text while driving.

Don't place or answer a call during hazardous driving conditions or situations.

Don't take notes or look up phone numbers while driving.

Don't engage in emotional conversations. They are distracting and even dangerous when you are behind the wheel.

Do use a hands-free device; it is the law in most states.

Do secure your phone within easy reach.

Do let your voice mail answer your phone if you can.

Do let the person you are speaking to know you are driving and that you will suspend the call if a problem driving situation arises.

Do assess traffic before placing a call. Place calls when you are not moving or before pulling into traffic.

Do use your phone to call for help in an emergency. In the United States, dial 9-1-1 in the case of a fire, traffic accident, road hazard or medical emergencies. Remember, it is a free call on your wireless phone!
